

You'll make more money at the wedding. And at the divorce.

You probably know that Royale limousines can command a premium price for weddings, anniversaries, proms and special events. But when it comes time to get "unhitched" from your older Royale, you might be pleasantly surprised. The fact is, Royale limousines have the highest average of resale values reported by the top five Lincoln limousine manufacturers.*

The reason is simple: Royale puts more into every limousine it builds, so you get more out. From our innovative and reliable electronic systems to our high level of structural integrity and finish quality, Royale is committed to producing the finest limousines on the market today. The result is a vehicle that sells itself for top dollar, from the day it arrives to the day it's ready to leave. But don't take our word for it. Invest in a Royale today and prove to yourself that profits speak louder than words.

**Royale means business.
