### PVPP

#### Strong Coverage and Support

Whether you choose a DTS livery sedan, a Cadillac limousine or funeral coach, or one of the Escalade livery products, you will be purchasing a quality professional vehicle that will add value to your fleet. And with the Professional Vehicle Protection Plan (PVPP), you will feel more confident about your purchase decision, knowing that your investment is well-protected.

#### **Professional Vehicle Coverage Exclusive to Cadillac Master Coachbuilders**

Cadillac has developed the Cadillac Master Coachbuilder Program to support efforts, provide quality products, and increase levels of customer satisfaction with professional vehicles. Since Cadillac recognizes that Cadillac Master Coachbuilders are committed to these objectives, along with continuous improvement of their conversions, Cadillac limits this protection to those professional vehicles manufactured by Cadillac Master Coachbuilders.

Coverage through this plan begins on the date the vehicle is first delivered or put into use. This will be the date the Cadillac dealer sells the DTS-L short stretch livery sedan (W30), limousine chassis (V4U) or funeral coach chassis (B9Q) to the Cadillac Master Coachbuilder. The actual selling date of the chassis/vehicle can be modified for the end-user by submission of the "Delayed Warranty Start" form, which is submitted by the selling Cadillac dealer or Cadillac Master Coachbuilder Dealer/Distributor. Repairs must be performed by authorized Cadillac dealerships.

Once you have invested in a Cadillac professional vehicle, your Cadillac dealer is aware of their responsibility in safeguarding your Cadillac and assuring you complete satisfaction throughout the ownership experience. As always, proper maintenance is your responsibility under the Professional Vehicle Protection Plan.

### ***What's Covered***

### **Owner's Responsibility**

Proper use of your vehicle is discussed in your owner's manual. Accidents or damage caused by collision, fire, theft, freezing, vandalism, riot, explosion or from objects striking the vehicle; misuse of the vehicle such as driving over curbs, overloading, racing or other competition; and alterations to the vehicle are not covered. #### **Vehicle Alterations**
